

Paul Jentgen - LUXEMBOURG

My "dogs's life"

I grew up with dogs, because my parents were breeding, training and showing German Shepherds. So I did the same hereinafter for a good time. My interests in dog's anatomy were so great that I passed the examination to be show judge for on breed in 1984. After being special judge for 6 years I added other breeds.

Today I judge all breeds in the FCI groups 1, 4, 7 and 8. And also many breeds in the FCI groups 2 and 6. In my judge career I judged very succesfull in many different countrys.

Dogs are always true, thankful and in good humor, they never lie and they never give secrets away. That's because I love them.

I'm looking forward to the show and to many nice dogs.

Paul
